
(Date)

The public sewer main construction cost for _____
(Development & Phase)
has been completed. The construction costs are outlined in the charts below:

Diameter of Gravity/Force Main	Pipe Material	Linear Footage of Sewer Main	Construction Cost of Sewer Main

The construction cost for each individually sized sewer main includes all the costs associated with the said sewer main's appurtenances (labor, services lines, valves, manhole structures, etc.).

Project Pump Station Name	Construction Cost of Pump Station

The construction cost for each individual pump station includes all the costs associated with the said pump station's appurtenances (labor, piping, valves, pumps, pump house, etc.).

Taking into account all of the above information, the total construction cost for all public sewer mains and pump station(s) associated with this project is \$_____.
